Marriage & Mistletoe

HOW TO PLAY

Object

To enjoy playful, sensual, and sexual play with your spouse. Oh, and to reach the Finish square.

Set-Up

- Print out the game board and instructions (recommend card stock, OK to print on both sides).
- Find a 6-sided die (from another game or printed from an online template).
- Choose two distinct game pieces, one for each player (from another game, or use something simple like coins, buttons, Lego blocks, or beads).
- Place your game pieces at the Start square.

How to Play

Marriage & Mistletoe is a simple roll-and-move game. Each player rolls the die, moves the number of spaces indicated, and completes the activity described by the square they land on. If desired, you can add a timer for each activity, from 30 seconds to 3 minutes.

The game is over when one or both of you reach the Finish square. But the fun continues...

SPECIAL SQUARES

Meet Under the Mistletoe

Imagine there's mistletoe above your heads, and give your beloved a kiss—as sweet or steamy as you want!

Jingle Hips

Your shoulders and hips have invisible bells attached to them. Get up close to your beloved and make them jingle!

Ski the Slopes

Your "skis" are your hands or your lips. Take some time to ski the slopes of your beloved's body, whether bunny hills or black diamonds.

Christmas Candy

Let your beloved choose a spot on their body. Treat that spot like Christmas candy: taste, lick, nibble, suck, or devour as you'd like! Yum.
